DETAILED ACTION

Allowable Subject Matter

1. **Claims 1-17** are allowed.
2. The following is an examiner's statement of reasons for allowance: the examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior arts. The instant application discloses an integrated circuit comprising a processor and memory storing: secret information and an inverse-string configured to receive a request for the secret information and test whether the bit-values of the inverse string are the inverse of the bit-values at respective corresponding bit positions of the secret information by combining the corresponding bits of the secret information and the inverse-string.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Silverbrook (US 7,194,629) discloses an apparatus for authenticating memory space of an authorized accessory.
